With Sally

Clothes, they say, make the man. Hmmm. We wonder. Now take John. John is a very nice husband in many ways, but when it comes to clothes he is completely unreasonable.

We've seen him come whistling down the steps, with a straw in his teeth, his elbows sticking out of his sleeves, a battered old hat on the back of his head and his left toe sticking through his sneakers—and he was on top of the world!

And as soon as we get him dressed up in a distinguished grey hat, lavendar socks and glass suspenders—he acts like we'd sold him down the river!

But food—ah, there is a subject after John's own heart! No chop is so humble, no stalk of celery so insignificant that it escapes his eagle eye.

"Sally," he'll say in the middle of his dinner, "this steak from Farmers Market was really a good piece of meat—this morning. What did you do to it, dear?"

We fumble indignantly for an answer, but the connoisseur has already tackled the potatoes.

"Darling," he'll ask patiently, "don't you know that no one ever bakes anything but Idaho russets? Lucca Ravioli carries Grade A-1 baking potatoes. And anyone who keeps up with the times at all knows how silly it is to make their own cakes—especially when —" he disapprovingly eyes the burnt edges of our masterpiece and the unexpected valley in the middle of it.

"I don't want to be unkind, Sally," he'll continue, "and I know you try your best. But do you realize you'll really save money—to say nothing of our digestion—if you'll read the bakery ads? Geneva Bakery makes unsurpassed Italian cream cake. Magnolia Pastry Shop bakes all kinds of fancy cakes to order, with pink roses and everything.

We swallow our rage and even manage to swallow some of our

(Continued on Page 2)

A TOAST TO THE PROFFESSOR'S BIRTHDAY

A toast to the Professor. Frank Morgan, James Stewart, Margaret Sullavan, Robert Young and Irene Rich in the birthday party sequence of "The Mortal Storm," filmization of the sensational Phyllis Bottome novel, which opens next Sunday on the Daly City theatre screen.

Package Receiver

A package receiver, installed in the wall of the kitchen, is a useful but not costly feature which adds considerably to the comfort of the family and to efficiency in the home. It has a self-locking door which opens outside and is insulated and ventilated. Another useful feature in the home is a laundry chute, particularly for homes with basement laundries and second-floor sleeping quarters. They are installed in the walls and have vertical shafts which permit soiled clothes and linen to be dropped directly to the laundry.

Bok Peace Award

In 1923 Edward Bok, the philanthropist, founded the American Peace award, offering $100,000 for the most practicable plan to establish and preserve the peace of the world.

Spice is Nice in Jellies

By BETTY BARCLAY

Adventurous cooks like a bit of spice in their homemade jellies and jams. Cinnamon, cloves, nutmeg, and ginger are familiar waker-uppers. Or just to be different, two or three crushed cardamon seeds, a finely chopped blade of mace, or several whole allspice can be added to a favorite recipe.

Such herbs as sage, savory, thyme, rosemary, and basil also blend particularly well with fruit flavors. Put a leaf in each glass before pouring jelly.

Here are two easy-to-do recipes that are thoroughly foolproof. The extra short cooking time gives you two-thirds more glasses, and all the fresh flavor of the fruit. Add spice or herbs to taste.

Ripe Pear Jam

3½ cups prepared fruit
4½ cups sugar
1 box powdered fruit pectin

To prepare fruit, peel and core about 3 pounds fully ripe soft pears. Grind or crush thoroughly.

Measure sugar into dry dish and set aside until needed. Measure prepared fruit into a 5- to 6-quart kettle, filling up last cup or fraction of cup with water if necessary.

Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. (To reduce foaming, ¼ teaspoon butter may be added.) Continue stirring, bring to a *full rolling boil*, and *boil hard 1 minute.*

Remove from fire, skim, pour quickly. Paraffin hot jam at once. Makes about 8 glasses (6 fluid ounces each).

Ripe Peach Jelly

(*Makes about 9 medium glasses*)
3 cups juice
6½ cups sugar
1 bottle fruit pectin

To prepare juice, remove pits from about 3½ pounds fully ripe peaches. Do not peel. Crush peaches thoroughly. Add ½ cup water.

Bring to a boil, cover and simmer 5 minutes. Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a *full rolling boil* and boil hard ½ minute.

Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

Scouting the Shops

(Continued from Page 1)

own cake. But once John launches into a discussion of how to keep house we've lost the battle before we begin.

"Let's both tackle this problem," he'll say magnanimously. "If women would run their houses like men run their offices—"

We think black thoughts while John opens up the Shopping News and gets out a pencil and paper.

"Now," he'll say happily, "we'll make out the grocery order first. Colma Pioneer Grocery has some wonderful specials this week. Sugar, 10 lbs. 52c; fancy rabbit alfalfa, 97c a bale. Then Robertson's Egg Store is selling that good new Prem for only 25c, and Westlake Market has beef roast 19c a pound and grapefruit 3 for 10c.

He mutters and scribbles. We are seething with fury and would like to point out to him a fact that he has overlooked—that we already have 4 dozen grapefruit stacked in the cupboard from the last time John decided to manage the house like his office.

But we don't, because on Page 2 we have noticed that Grace's beautiful chenille bedspreads are selling for only $3.45 and we are trying to think of a tactful way to mention the subject.

"Beeson Cleaners have put in new equipment," he continues absently. "Better send my good suit tomorrow. And the Los Olivos Tailor Shop is a good place to send that coat that needs taking in."

"By George," he says suddenly, all masculine attention, "look at this—Mather brothers say you

(Continued on Page 4)

Champion Gas-Mask Wearer

Champion gas-mask wearer of all Soviet Russia is Private Ivan Soloshenko, of the Far Eastern Red army. He won the honor by wearing his mask for 2,520 hours, removing it only to eat his meals.

Aluminum Softball Bat

A new product of the metal industries is an aluminum-alloy softball bat designed by a company in Cleveland. Weighing the conventional 32 to 33 ounces, the bat does not sting the hands because it is made of metal, and it cannot break in actual play.

Radio Announcers' Diction

One of the requirements of the major radio networks is that announcers' diction should be free of all sectional accents.

Checkerboard Cookies

—By Frances Lee Barton—

IT'S your move to make checkerboard cookies. It's the children's move as soon as they get a whiff of those aromatic tasties being baked, and it's the cookies' move very promptly thereafter — for checkerboard cookies are guaranteed not to keep—unless they are securely hidden!

Checkerboard Cookies

1½ cups sifted flour; 1 teaspoon double-acting baking powder; ½ teaspoon salt; ½ cup butter or other shortening; ½ cup sugar; 1 egg yolk, unbeaten; 2 tablespoons milk; 1 square unsweetened chocolate, melted.

Sift flour once, measure, add baking powder and salt, and sift again. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg yolk and beat well. Add flour, alternately with milk, mixing well after each addition. Divide dough in two equal parts. To one part, add chocolate and blend. Chill until firm enough to roll. Roll each half into rectangular sheet, ¼ inch thick and 2 inches wide and place chocolate sheet on top. Cut lengthwise in three equal parts and place one on top of another, making six ¼ inch layers of contrasting colors. Chill thoroughly. Cut in ¼ inch slices. Arrange six slices, one on top of another, alternating chocolate and plain sections, so that the ends show checkerboard design. Roll carefully in waxed paper. Chill overnight, or until firm enough to slice. Cut in ¼ inch slices. Bake in hot oven (400° F.) 6 minutes, or until done. Makes 4 dozen cookies.

Man's Weakness — Cake

—By Frances Lee Barton—

THIS Harvest Cake with its Harvest Moon Frosting is guaranteed to please the male of the species, whether he be harvester, or hardware merchant; nineteen or ninety. It's a man's cake — easy to make and very easy to dispose of.

Harvest Cake

2 cups sifted cake flour; 2 teaspoons double-acting baking powder; ¼ teaspoon salt; ½ cup butter or other shortening; ¾ cup light brown sugar, firmly packed; 2 egg yolks, unbeaten; ⅔ cup milk; 1 teaspoon vanilla.

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg yolks and beat well. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in greased pan, 8 x 8 x 2 inches, in moderate oven (350° F.) 45 minutes, or until done. Spread Harvest Moon Frosting on top and sides of cake.

Harvest Moon Frosting

2 egg whites, unbeaten; 1 cup brown sugar, firmly packed; dash of salt; ¼ cup water; 1 teaspoon vanilla; ¾ cup almonds, blanched, chopped, and toasted.

Combine egg whites, sugar, salt, and water in top of double boiler, beating with rotary egg beater until thoroughly mixed. Place over rapidly boiling water, beat constantly with rotary egg beater, and cook 7 minutes, or until frosting will stand in peaks. Remove from boiling water; add vanilla and beat until thick enough to spread. Add nuts. Makes enough frosting to cover tops and sides of two 9-inch layers, or top and sides of 8 x 8 x 2 inch cake, or about 3 dozen cup cakes.

U. S. Leads in Chemistry

Prof. E. J. Crane of Ohio State university, editor of Chemical Abstracts, has reported that the United States leads the world in chemistry. Germany has dropped to third place and Great Britain to second. Professor Crane's report is based on an analysis of 60,000 chemical discoveries.

Men's Trench Coats

A boom in the sale of men's trench coats is due to the "discovery of young men that their girl friends like a uniform," according to the Wholesale Textile association, of London.

Scouting the Shops

(Continued from Page 2)

can get up to 35 miles a gallon with a new Willys."

"Byrne Radio Stores sell electric ironers for next to nothing," we say significantly. We argue. We finally decide to investigate both.

And so it goes. John decides to take the children to the Daly City theatre Sunday to see the "Dead End Kids."

We decide that Jack Carney's dance studio is the very place to send Sue Ann on Saturday mornings, and that the family car should be given some expert lubrication at Stan's Standard Station.

Time passes. Our lists grow longer and longer. At midnight we are happily building an imaginary basement room for the kiddies with the help of H. H. Smith Lumber Yard. We have forgotten we ever disagreed about things like potatoes and running the house.

In fact some day John may even see the light on such things as glass suspenders and lavendar socks—or will he?

Gasoline Taxes

American motorists paid more than $7,000,000,000 in gasoline taxes in 19 years after the first tax of this kind was levied. This is almost as much as the federal government requires for one year's running expenses.

Netherlands Defensive Flooding

If the dykes in the Netherlands are open, defense flooding would damage the farm lands, and necessitate the evacuation of thousands of residents, but the water would not be sea water, it would be fresh water from the rivers, or the old Zuyder Zee, now called Ijssel lake. It would do no permanent harm.

Business As Usual

"Business as usual" is the slogan of the California Commission despite the tragic fire which destroyed Treasure Island's beautiful California State building.

Executive offices of the Commission are now established in the north wing of the Los Angeles building, used last year for the San Diego exhibits but unused this year. Before the embers in the California building had cooled, a table, orange boxes for seats, six telephones and a squad of telephone girls had been installed.

All desks and office equipment rescued from the raging flames have been removed to the new quarters, along with filing cabinets and other office equipment. All valuable papers and documents were rescued from the second floor before the flames reached that part of the building.

Barber Shop Quartet

Last call for barber shop quartets!

The State-wide contest at the Exposition September 15 is drawing scores of entries from all parts of the State.

Old songs with costumes to match are required—plus good barber shop voices.

For details write to Charles W. Davis, California Commission, Treasure Island.

Drum Corps Whist Set For Sept. 10

Whist players will gather at Theatre hall, Tuesday evening, September 10, for the September card party given for the benefit of the Daly City Juvenile Drum corps.

A cash first prize and other valuable awards will reward lucky players. Playing begins at 8:30 p. m.

"We cordially urge everyone who likes to play whist to attend this party," the committee said today. "Arrangements are now complete and we can promise everyone a good time."

Social Club Sponsors Whist

Free refreshments, a cash door prize, and many other attractive features are announced for the public whist which Crocker Social Club, F. & A. M., will sponsor Tuesday evening.

Playing begins at 8:30 p. m. at Masonic hall. The committee in charge have procured many valuable awards to distribute to lucky players.

"Try your luck with us on Tuesday," officials of the club urged today. "We've planned a real party and we cordially invite everyone to attend."

100 Languages

The Salvation Army conducts its ervices in 100 languages.

Interview Thirty-Two In Training Program

Thirty-two workers have already been interviewed in San Mateo county in the enrollment of WPA skilled mechanics in the National Defense Training program, the WPA county office announced today.

Included among the skilled mechanics interviewed by a representative of the district office were 8 aviation mechanics, 8 welders, 6 electricians, 5 carpenters and 5 mechanics. The interviews are being confined to these classifications at present.

With their consent, physically able workers are sent to San Jose for a three months' brush-up training.

Those wishing further information may contact the Works Progress administration, San Mateo county office, old court house building, Redwood City.

Are Your Feet Killing You?

The National Safety Council reports that 12,300 pedestrians were killed in traffic last year!

Their feet killed them!

Reports show that two out of every three pedestrians killed either were violating a traffic law or acting in an obviously unsafe manner.

That puts it squarely up to you pedestrians. Walk safely. Use the lights. Don't jaywalk. Remember . . . a short cut often is a long chance.

San Mateo County Traffic Safety Commission.

Did you forget someone's birthday this week? Ocean View Toggery carries gay cards and gifts of all sorts. And don't neglect to stock up on drug needs at the Ocean View Pharmacy.

Largest Underground Canal

The world's largest underground canal flows from the port of Marseilles in France to the Port de Bone, and is 4½ miles long, and has a width of 72 feet.

Auto's Price in 1907

The average price of autos in 1907 was $2,131.

Mahogany Native to U. S.

Mahogany is native to the United States. It is found though only in small quantities in southern Florida on the mainland and on the larger of the keys. It is the same species of mahogany that grows in the West Indies, where it is known principally as Santo Domingo or Cuban mahogany. An avenue in Miami is lined for many blocks with mahogany trees. The average person might easily mistake them for ash trees due to the similarity of the leaves. "Mountain mahogany" is a large shrub or small tree found in the western states. It is not a mahogany but a member of the rose family. The wood is very close grained and of a rich red color. The trees are small and the wood has not the stability of mahogany.

State Roofs

When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

Speedy U. S. Trains

The United States has more trains that run at a speed of 60 miles an hour than any other country.

Height of Chimneys

Height plays a considerable part in the efficiency of a chimney, many authorities maintain. For this reason, chimney heights of 30 to 35 feet as a minimum are recommended. Any arbitrary minimums must be considered in the light of local conditions, however, as overhanging trees, the height of the chimney above the roof, and strong prevalent winds can cause disturbance in the draft action.

Largest Jewel

The Smithsonian institution has acquired the world's largest jewel. The stone is an almost flawless crystal of topaz, weighing 188 pounds, or 350,000 carats. The average topaz for a ring or necklace weighs about five carats. The huge gem was discovered in the Minas Gerass province of Brazil. Its color is pale blue on the outside and a pale sherry on the inside.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower, Travelers Joy in the Hedgerows, Convolvulus, Teazles, ivy in bloom, and plenty of blackberries and nuts for the gathering.

Proper Electrical Service

The home owner, when buying electrical equipment, is cautioned by the Federal Housing administration to bear in mind the type of electrical service he is to receive, as many electrical appliance usable on direct current will not operate on alternating current. Localities where direct service is supplied are declining, but it is still a factor.

Lake George Discovery

Lake George was discovered in 1646 by Father Isaac Jogues, known as the French ambassador of peace to the Indians. A statue of the priest and explorer has recently been unveiled on the shores of the lake.

College Attendance

The chances of attending college, which were one in 33 in 1900 are now one in six.

Biggest Shovel and Tractor in the World

Down in Booneville, Indiana at the Tecumseh mine there is now in operation the biggest operation of its kind in the world. It is a strip coal mining job, employing the biggest coal shovel ever built, which delivers the coal to a Fruehauf trailer, the largest unit of its kind in the world. A big Mack tractor draws the load. Thousands of people visit the mine weekly to watch this gigantic operation.

Pulchritude Plus — Patricia Morison, photographed at her home, was an artist and dress designer, which may be the reason she scored to stardom in Hollywood after making three pictures.

American Theme in Headgear — New York—The tiny old fashioned bonnet is of black broadcloth trimmed with feathers and nasturtiums.

Dr. J. Leon Lascoff, past president of the American Pharmaceutical Association, reading the Pharmaceutical Recipe Book. This book is being presented this year to 1,300 graduates of pharmacy schools, throughout the country, by the Owens-Illinois Glass Co.

Columbus used a common hen's egg to prove the world is round. It proves how the best scientific ideas that seem so complicated very often may be easily explained. Such is the case with Evanoil's "fan-forced floor-level heat"—an exclusive method of heating. The bent candle flame shows how the heat spreads across the floor from an Evanoil, thus heating the "living zone" instead of the ceiling. 248

Large Hull Launched

The first large hull in 60 years was launched at Nova Scotia when a 45-foot dredge slid down the ways of a Pictou marine railway. The hull was built for the department of public works.

Wrestler to Africa

Wrestler "Whiskers" Blake, six feet seven inches, thin and wiry, known to Canadian mat fans, arrived in Africa for 14 days, but has stayed there three years because he likes it.

U. S. Outlying Territory

The total outlying territory of the U. S. is 711,606 square miles, the total continental area, 3,026,789 square miles.

National Park Visitors

Travelers from 22 foreign countries, five United States possessions, the 48 states and the District of Columbia were among the 361,787 visitors to Mount Rainier National park last year. It was the second largest number of visitors in history.

Australia's Future

Pointing to "Australia's future place in the Pacific, her very existence perhaps" Prof. Stephen H. Roberts urges the New South Wales government to teach American history in its schools.

Great Smoky Mountains

Dr. H. M. Jennison, University of Tennessee botanist, says the Great Smoky Mountains National park has nearly twice as many different kinds of trees as are found in all Europe.

World's Greatest Housekeeper
Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 228,528 sheets, 157,760 pillow cases, 20,263 tidies, 455,829 hand towels, 24,318 headrest covers, 12,692 napkins and 3,260 table cloths, the Association of American Railroads reports.

Biggest Building
The biggest building in Europe is the Palace of Justice at Brussels. It covers an area 12 per cent greater than that of St. Peter's at Rome.

Haiti Building Boom
Backed by United States credit, Haiti is launching a building boom which will include new roads, bridges and irrigation works.

Midway Islands Discovery
The Midway islands were discovered on July 5, 1859, by Capt. N. C. Brooks of the American-owned Hawaiian bark, Gambier, who took possession in the name of the United States. Captain Reynolds, in the U. S. S. Lackawanna, took possession formally on August 28, 1867.

Money in Your Pocket
You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

Foreign Auto Ownership
Of all the countries in the world, only two—Ethiopia and Liberia—have as few cars per person as America did in 1900. They have one auto to 12,000 inhabitants.

Gorillas Are Sissies
The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

Abyssinian Burial Tree
In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

Eight Ounce Gloves
The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing not to exceed four ounces each.

U. S. Mutton Consumption
Nearly two-thirds of all the lamb eaten in the United States is consumed north of Washington and east of Pittsburgh, an area which grows less than 5 per cent of the country's sheep.
